

e-Symposium "Can ITSM improve IT efficiency and ROI, even in a recession? Yes it can!"

Autor: Karolina Kocko
piątek, 22 maj 2009

Zachęcamy do wzięcia udziału w e-seminarium w języku angielskim.
Szczegółowe informacje – poniżej:

The May 2009 online itSMF UK e-Symposium will be taking place on May 28th between 2pm - 4:05pm (London time) online at <http://itsmf.brighttalk.com> (you will need to register separately for this Free event).

Topic: "Can ITSM improve IT efficiency and ROI, even in a recession? Yes it can!"

Event Synopsis: IT departments are under huge pressure from business management to gain insight and control over their IT function – and many are turning to automation to achieve results fast - and for good reason. Especially in today's challenging economic environment better insight and control - achieved through automation - means less downtime & better resource utilisation, ultimately reducing your organisations expenditure while enabling you to deliver better services in a tightly regulated environment. You need to ensure your solution is agile, quick to implement and quick to show its value.

The speakers are:

- John Murnane (EMC Corporation)
- Simon Adams (Lloyds Banking Group)
- Glenn Fitzgerald (Fujitsu)

This itSMF UK e-Symposium event is sponsored by EMC and for details of the presentations (and to register) please go to <http://itsmf.brighttalk.com/node/501>

For those who are unable to join this meeting an archived version will be available 4 working days after the event at <http://itsmf.brighttalk.com/recorded-events>. You will also be able to listen/view to any of the past events at this location. If you have any questions please e-mail me at chris.roberts@itsmfi.org
